

Old-Town Osaka Viewer on Android Phone
Osaka University
July 5, 2012

Sumin Wang

Progress

- Created an orientation based virtual reality to view models from imported .3ds files
- Investigated GPS accuracy. Looked at apps like Google Maps, which has rather accurate positioning but intermittent updates
- Investigated augmented reality techniques on Android
- Investigated modelling Osaka University, Toyonaka campus on Google Sketchup, in the interest of computer vision-based positioning techniques further on

Goals for Next Week

- Finish prototyping GPS and augmented reality
- Model in life size a portion of the Osaka University, Toyonaka campus on Google Sketchup

Shopping with some very fashionable Japanese ladies at the Umeda district.
