

**INTERACTIVE MODEL FOR THE  
RAILROAD MUSEUM**  
AUGUST 15, 2014

**Nicole Wong  
NICT – Osaka, Japan**

## SUCSESSES SO FAR:

1. Established links between physical hardware and the internet.
2. Got the music shield working
3. Raspberry Pi is able to stream video successfully to the internet

## TO DO FOR THE NEXT TWO WEEKS

- Implement the “button” system – if a certain amount of people click the button, the light goes on.
- Implement the music part – the volume raises as more people click the button
- Comment and improve current code ( document it so it could be better understand)
